- 1 100% recyclable plastics are manufactured using efficient processes
- 2 Steel tubing is 100% recyclable and contains 50% post-consumer recycled materials
- 3 100% recycled plastic lumber
- 4 Aluminum uprights are 100% recyclable and contain 65% pre-consumer and 10% post-consumer recycled content
- 5 100% recyclable plastics
- 6 Steel decks and stairs are 100% recyclable and contain 30% pre-consumer and 68% post-consumer recycled content
- 7 100% recycled plastic curbs

RECYCLED AND RECYCLABLE CONTENT

Environmentally responsible play systems that last for decades, not years.

OUR PLAYGROUNDS ARE DESIGNED FOR FAMILIES AND TO MINIMIZE THE IMPACT ON THE PLANET WHERE WE PLAY.

It's our responsibility to act as stewards of our planet and its natural resources. It's also our mission to create fun, active, and innovative places for families to gather and play. Our environmental sustainability efforts are intended to help ensure children of today can take their grandchildren to playgrounds in the future. Our approach to stewardship and sustainability encompasses every aspect of our company - from the way we manufacture our products to how we do business. Children learn many valuable life skills on playgrounds. We've learned some important lessons, too. We continuously strive to be environmentally responsible and to make sure future generations benefit from our efforts.

RECYCLING (ANNUAL)

Cardboard: 26.1 tons	Ballasts: 25
Paper: 9.4 tons	Fork lift batteries: 15
Scrap plastics: 137.1 tons	PVC trimmings: 2.4 tons
Computer equipment: 5,135 lbs.	Steel: 3,404,260 lbs.
Plastic bottles: 26,568	Aluminum: 23,568 lbs.
Fluorescent bulbs: (4') 240	

125,000 INDIVIDUAL PARTS 400,000 SQUARE FEET ONE ENVIRONMENTAL COMMITMENT

- We work with our suppliers to source the most environmentally preferable materials for our products.
- We include as much pre-consumer and post-consumer recycled content in our products as possible – without compromising the quality, durability, and performance.
- We're updating light fixtures, upgrading air compressors, and conducting energy audits because every small improvement leads to significant reductions in our overall environmental impact.
- We've implemented a variety of initiatives to reduce water consumption in our facilities, including the use of high-efficiency technology for product painting and washing.
- We recycle the vast majority of waste at our manufacturing facility, including 100% of manufacturing process waste like scrap metal, rotationally molded plastic and paper. We recycle the majority of our administrative waste, too.
