					H=3 M=2 L=1	In Top 3	2019-2020	Group H/M/L	High Group - Top 3	Target for 2019- 2020	Group H/M/L	High Group - Top 3	Target for 2019- 2020	Group H/M/L	High Group - Top 3	Target for 2019- 2020	Group H/M/L	High Group - Top 3	Target for 2019- 2020	Group H/M/L	High Group - Top 3	Target for 2019- 2020	Group H/M/L	High Group - Top 3	Target for 2019- 2020	Group H/M/L	High Group - Top 3	Target for 2019- 2020	Group H/M/L	High Group - Top 3	Target for 2019- 2020	
1		24	Update PROST Plans		22	4	6	3	1	1	3	1	1	3			1	3			1	3			1	3	1	1	3	1	1	Dan: I suggest some level of planning update is needed before any new amenity is considered, and this should be our highest priority. Todd: I'm probably not understanding well but it feels like we do more reacting to the whims of the board and certain citizens than we should and don't have clear long-term goals that we are driving to.
2		20	Riverbend Playground		20	4	6	3	2	1	3			3	2	1	2				3	2	1	3	2	2	3			Dan: Rating 3 to prioritize public engagement on this feature since this is already in the budget. Ron: Expand Autrey or new one. Ron: Before making this a High Priority, need to see feasibility study results for that location.		
3		6	Tennis Court	X	18	3	2	1			3	2	1	3	1	1	3	3			2			1			3			Jacques: The demand for tennis courts currently exceeds the supply. Todd: I think right now we're OK but as all these new houses / apartments come online, we'll be in need of additional facilities.		
4		1	Community Center (passive)		18	2	2	3			3			3			2				3	1	1	1			3	1	1	Dan: Isn't this a possibility for STC? Jacques: Indoor community center space (meeting rooms, event areas, digital library, teen space, etc.) is a gap in the town's amenities and continues to be an item with strong interest. Todd: General meeting space more central to current housing as opposed to down by Sports Stable was the feedback I got as most desirable		
5		23	Indoor Pool new		18		1	2			3			3	3	1	1				3			1			3			Dan: This seems to be one of the most consistent needs mentioned regarding Rec. I think we should prioritize understanding exactly what is needed, also understand what is missing relative to neighborhood communities in the context of exploring the possibility of partnerships related to rec. Is this a possibility for STC? Jacques: An indoor pool was one of the top amenities desired in a community recreation center; therefore, there is a high demand for an indoor pool in the town. Todd: I don't know all the history of the rec center however everyone I talk to puts this along with the overall rec center as a very high priority.		
6		2	Indoor Recreation new (active)		17	2	0	3			2			2			3	1			1			1			3	1		Dan: Isn't this a possibility for STC? Jacques: The Sports Stable facility at STC has provided much of the needed indoor recreation space (although it is a private facility and not a true community recreation center). Todd: I don't know all the history of the rec center however everyone I talk to puts a rec center as a very high priority.		
7		7	Multipurpose Field – Additional field	X	17		1	2			2			3			1				3			2			3		1	Todd: I think right now we're OK but as all these new houses / apartments come online, we'll be in need of additional facilities.		
8		22	HHR viewing area new		16		2	2			3		1	1			3				3	3	1	2			2			Dan: I think this is an interesting idea myself, and higher priority given potential for development nearby		
9		19	Additional off-leash areas for dogs reworded	X	16	1	1	1			3			2	3	1	3				2			2			1			Dan: We have at least one resident interested enough to show up for a meeting. Suggest prioritizing at least public engagement to understand the need. Ron: Expand Autrey or new one. Jacques: Maybe a second dog park (which is an off-leash area) can satisfy the demand for an off-leash area. This would be legally more feasible as dog parks are exempt from the town's leash ordinance.		
10		17	Basketball hoops or half-courts in smaller parks		15		0	2			3			2			1				2			1			2			Todd: Maybe in a couple more areas but not needed everywhere. I don't see the basketball court in Wildflower park for example used that much as it is.		
11		3	Upgrade Community Park west multi-purpose fields		14	1	1	1			3	1	1	2			1				1			1			2			Todd: I think right now we're OK but as all these new houses / apartments come online, we'll be in need of additional facilities.		
12		12	Pickle ball courts	X	14		2	2			1			2		1	3		1		2			1			2			Dan: There is vocal support for this amenity, however I think we should first understand the need after latest change to paint lines on existing courts and whether this strategy could/should be used going forward. Jacques: The "temporary" pickle ball court at Wildflower park has been successful (good usage and no complaints). Todd: Didn't get high marks from people I talked to however I know it's very popular with some. I'd advise we look at Wildflower basketball/pickleball utilization before trying to do something specific permanently.		
13		21	White Raven Playground Partnership new		13		1	2			1			2			1				2			3	3	1	1			Dan: Rating 3 based on urgency of current request and subject to feedback from the Board about their level of interest in pursuing. Public engagement should be first step in this case. Jacques: The vast majority of the school's students are Superior residents and it would be a nice amenity for them to have outdoor park or playground nearby. Todd: This seems targeted at single citizen needs and from what I have heard not something that neighborhood is asking for. Location should be carefully considered if a park is needed in that general area of town.		
14		13	Youth Baseball Field – Little League Field with lighting		13		1	1			1			1			3	2	1		2			1			3			Todd: I think right now we're OK but as all these new houses / apartments come online, we'll be in need of additional facilities.		
15		16	New splash pad/water play feature	X	13		0	1			2			1			1				2			3			1			Dan: Would like to investigate this more in conjunction with white raven opportunity, and in the case the Board is interested in pursuing this or to prepare for this possibility. Can be rated lower if the board is not interested in pursuing White Raven partnership. Jacques: This would be a nice feature at the STC.		
16		8	Coyote Ridge bike "park" enhancements		12	1	1	3	3	1	1			1			1				2			1			2			Jacques: Coyote Ridge is a natural area that I don't believe needs further enhancements.		
17		11	Educational and Interpretive signage in park system		11		2	2		1	1			1			1				3		1	1			1					
18		9	Outdoor Amphitheater	X	11		1	2		1	1			1			1				1			1			3			Todd: I was surprised at the feedback on this when I asked people - very positive. I think building it would be a big waste and could easily become a negative feature unless the city had plans to keep it utilized.		
19		5	Natural climbing feature at parks new		11		0	1			1			2			1				1			1			2			Jacques: An interesting idea for a new amenity that we should discuss further (more details, potential locations, etc.). Todd: I would suggest a larger more full featured climbing structure at a single location in town rather than smaller ones throughout.		
20		15	Community Garden		11		0	2			2			1			1				2			1			1			Todd: It seems this makes more sense for higher density housing that is coming online and could be mandated as part of those areas and not something the city should focus on. Important but not best to be part of city budget process.		
21		10	Outdoor Pool	X	10		0	1			1			1			3				1			1			1			Todd: While maybe important as the population grows with new housing, we do have other outdoor pools and we have no indoor pool. Until the indoor pool question is resolved, I think this should be tabled.		
22		14	Practice area batting cages between existing baseball fields		10		0	1			2			1			1				2			1			1					
23		18	Agility course for dogs at dog park		10		0	1			2			1			2				1			1			1					
24		4	Sledding Hill new		9		0	1			1			1			1				1			2			1			Dan: Would like to investigate this more in conjunction with any possibilities related to new ShanShan trailhead, for this reason priority is higher at this time and I'd prioritize public engagement to understand overall interest. If it's not possible to include with ShanShan I'd prioritize at L and only increase pending public engagement. Jacques: An interesting idea for a new amenity that we should discuss further (more details, potential locations, etc.). Todd: We've got plenty of other priorities and people already have places to sled even though not official.		
25			Skate Park (incl. improvements at South Pool) remove		2		0				1													1
