Phase One Summary – Reopening Plan – Town of Superior North and South Pool

In accordance with the FIFTH AMENDED PUBLIC HEALTH ORDER 20-28 SAFER AT HOME AND IN THE VAST, GREAT OUTDOORS released on June 2, 2020 by the Colorado Department of Public Health & Environment, Town staff is preparing to open up both North and South Pools at limited capacity on Monday, June 8. Advance online registration will be required for residents to reserve a 1.5 hour session for recreational swim at either pool. Although residents of all ages will be permitted at the pools, participants must be a minimum of 14 years of age to both make the online registration and visit either pool independently. Individuals under age 14 must be accompanied by someone age 14 or older. There will be a maximum of 50 people during each session at both North Pool and South Pool.

All online reservations for recreational swimming will be done through www.superiorrec.com. Reservations for the first available week, June 8 through June 14, will open on Friday, June 5 at 12pm. Town of Superior residents must possess a digital pool membership card in order to make a reservation. For each available week resident households and/or individuals may register for up to three time slots per week, with a maximum of one time slot per day. The Town will open registration for one week at a time – with each available week being released on Wednesdays at 9am. Releasing one week at a time allows for the ability to adapt our plan and expand services and hours if need be. Please be patient, flexible, and mindful of an anticipated high demand on recreational swimming reservations with relatively few slots available due to public health restrictions. For questions please contact Superior Town Hall at 303-499-3675.

Phase One Pool and Facility Protocols

- Pools will only be used by making an advanced reservation on-line. No walk ups, no in-person transactions at this time.
- Stay Home if you are showing symptoms of being sick: Fever, shortness of breath, cough. You should never swim if you are not feeling at your 100%.
- Recreational swimming reservations will be available seven days a week, beginning at 11:30am each day at North Pool, ending at 9pm, and beginning at 10:30am each day at South Pool, ending at 8pm. Reservations will be set up in blocks of 90 minutes for recreational swimming sessions, followed by 30 minutes to clear the pool and facility to allow for a deep clean prior to the next session. All surfaces of the pool will be cleaned during the 30 minute break to prepare for the next session of participants. Open hours may be expanded in a future Phase in addition to offering limited swim lessons and aquatics programming.
- Participants are required to cancel their reservation if they no longer plan to visit the pool. Ability to make future reservations may be limited or disabled for repeated infractions of “no showing” and not cancelling a reservation. Available spots are limited. Please be respectful of this policy and all who may desire to use the pool during this time. To cancel your reservation please send details of the day and time you would like to cancel to tospros@gmail.com.
Participants must be age 14 & over to access the pool independently. Individuals under age 14 must be accompanied at the pool by someone age 14 or older. Age restrictions may be loosened over time. Town of Superior residents only. No guests permitted at this time.

There will be a maximum of 50 people permitted at the pool at a time at both North Pool and South Pool. Swimmers not living in the same household should stay at least 6 feet apart during recreational swim.

At this time lap lane use will be first come first serve when participants get to the pool. Two lanes will be available at North, one at South. No more than one swimmer per lane in lap lanes. Lap swimmers are encouraged to work with one another in determining an equitable approach to sharing the allotted session time for lap lane use. Specific session times designated just for lap swimming reservations may be offered in a future Phase.

Swimmers must take care of themselves, other swimmers and staff! All participants MUST wear a face covering into the facility/pool area and then put the face covering back on upon exiting the pool and facility. Swimmers SHOULD NOT wear a face covering in the pool.

Prior to a session start time, participants will line up outside the pool entrance along the sidewalk. Tape will be marked on the concrete to indicate 6 feet of physical distancing when lining up for check-in.

Hand sanitizer will be made available at the entrance of each facility. The pool Front Desk Attendant will check in participants by name as they enter the facility. Each participant will be asked to come prepared to swim with their swimsuit on. Colored wristbands will be assigned at check-in. Pool staff will give a brief orientation to all pool users on distancing, staying safe, expectations, etc. prior to using the pool.

Pool furniture will not be available for use at this time. Square “zones” will be marked on the pool decks at both pools for individuals/family groups to store belongings and also stay and relax when not in the pool. We encourage participants to bring their own folding chairs/furniture and be mindful in maintaining a minimum of six-foot distancing from non-family members. Pool managers will help enforce physical distancing guidelines in place.

Follow all directional signage – enter the pool/exit the pool at the designated area.

Participants must bring their own swim equipment and gear to use. Equipment will not be provided by the facility, with the exception of life jackets.

Limited use of locker room showers, sinks and toilets will be available. Please practice physical distancing with all non-family members while in the locker rooms. Please wash your hands before and after you use the locker room. Access and storage of personal items in lockers at South Pool will closed. Each locker room will be closed for disinfecting after each use. We encourage participants to shower at home after pool use.

Pool chemicals and chlorine levels will be maintained per CDC and health department regulations and guidelines to maintain proper sanitation, disinfection, and clarity levels.

Drinking fountains may not be available for use. Please bring your own water bottle.

Participants must follow all directions and protocols or they will be asked to leave the facility.

Please review the inclement weather policy:

- **Inclement Weather Policy:** When dangerous or severe weather conditions – including visual sight of lightning or any audible thunder - Aquatics staff will clear all swimmers from the pool. Patrons must take shelter in the building or under the roof of the facility. Patrons will be kept away from all water sources, including showers and drinking fountains. Patrons will remain out of the water until a 25-minute period has passed with no lightning sighted or thunder heard in a close range. If the pool closes for the day closure signs will be posted on the front doors and a notification will be made online at www.superiorrec.com. Participants assume all risk for recreational swimming reservations which may be adversely affected by inclement weather.
